

Shaikh Mohd ilyas

Sr. Software Engineer | Tech Lead & Project Manager | AI Development

shaikhilyas387@gmail.com | 8080611513 | Mumbai, India | LinkedIn | GitHub

PROFILE

Senior Full Stack Engineer & Technical Lead with 3+ years of experience owning features end-to-end across scalable SaaS platforms. Acts as a bridge between clients, UI/UX, and development teams — driving requirements clarity, structured planning, and on-time delivery. Strong in backend systems, multi-tenant architecture, and AI-based development. Proven track record of mentoring teams, managing project execution, and reducing rework through cross-functional collaboration.

PROFESSIONAL EXPERIENCE

Senior Software Engineer (Full Stack) 03/2025 – Present | Mumbai, India

AdsCult

Tech Lead | Project Owner

- Built and scaled **multiple production-grade, multi-tenant SaaS platforms** from scratch with secure **RBAC and modular architecture**
- Designed and delivered **complex domain modules** including Digital Vault (assets & liabilities), wills, contacts, family hierarchies, HRMS, and business workflows
- Implemented **hierarchical admin systems** enabling super-admin, organization admin, and member-level feature control across tenants and direct users
- Developed a **modular HRMS platform** covering attendance, payroll, reimbursements, employee loans, and KPI management
- Integrated **subscription billing, webhook automation, and feature-based access control** using Razorpay
- Unified HR and business operations by integrating **Lead, Project, and Company (LCP) modules** within core platforms

Senior Full Stack Developer 07/2023 – Present | Remote

Techplus Media

- Built and owned **multiple production platforms from scratch**, delivering scalable backend and frontend systems
- Developed an **AI-driven B2B lead management platform** with intent data, ABM workflows, automated lead qualification, and full-funnel transparency
- Built a **CXO mentor-mentee marketplace** connecting fractional CXOs and mentees, including onboarding, engagement, and job management features
- Delivered a **CMS-driven media platform** with admin-controlled content, media, and ad management using Strapi

Full Stack Developer 09/2022 – 05/2023 | Mumbai, India

Trackk

- Built a **stock market learning and analytics platform** covering Stocks, FnO, IPOs, portfolios, and screeners
- Implemented **simulated trading with virtual coins** to help users practice and learn trading strategies safely
- Delivered **courses, notes, and real-time research insights** to support informed, data-driven trading decisions

EDUCATION

Bachelor of Science in Information Technology (BSc IT), Mumbai University 07/2022 – 05/2025 | Mumbai, India

Diploma in Mechanical Engineering, Mumbai University 05/2016 – 07/2018 | Mumbai, India

SKILLS

- Frontend:** JavaScript (ES6+), TypeScript, React.js, TanStack (Query/Router), Redux, HTML5, CSS3, Tailwind CSS, Responsive Web Design
- Backend:** Node.js, Express.js, RESTful API Development, MVC Architecture, AuthN/AuthZ, RBAC, Razorpay Payment Gateway, BullMQ
- Databases:** MongoDB, PostgreSQL, Prisma ORM, Database Schema Design & Optimization, Redis
- AI & Automation:** n8n Workflow Automation, AI Agents, AI SDK Integration, Vector Databases, AI-Powered Chatbot Development
- DevOps & Cloud:** Docker, Docker Compose, Coolify, CI/CD Pipelines, Cloudflare (CDN, DNS), Render (Production Deployments)
- Engineering Practices:** LLD, OOPs, Modular & Scalable Architecture, Performance Optimization, Git & GitHub, Code Reviews, Postman

PROJECTS

SturdyNotion, Full-Stack EdTech Platform

- Built a full-stack EdTech platform using React, Redux Toolkit, Node.js, Express, and MongoDB with JWT authentication, OTP-based email verification, and role-based access control.
- Integrated Razorpay payment gateway with cryptographic signature verification, automated enrollment on payment success, and persistent multi-course cart checkout.
- Built a course management system with video uploads to Cloudinary, course progress tracking, and an instructor dashboard with revenue/enrollment analytics using Chart.js.

LeadXchange – AI-Powered B2B Lead Management Platform, 03/2024 – 01/2025

AI-driven intent marketing, ABM campaigns, and human-verified B2B lead generation

- Built a **CXO mentor-mentee marketplace platform** connecting fractional CXOs and mentees across domains, including onboarding and engagement flows
- Implemented a **job management module** enabling multi-domain job posting, discovery, and applications within the platform
- Built a **CMS-driven media platform** with admin-controlled content, media, and ad management using Strapi
